TOM ULRICH grew up in South Chicago, graduated with a degree in biology from Southern Illinois University and taught biology for four years before launching his career as a freelance photographer. In 35-plus years as a nature photographer, he has assembled a library of more than 800,000 images that include birds and mammals from all over the world. His photographs have been featured in National Wildlife, Audubon, National Geographic, Montana Outdoors and others. He has published seven nature books.
