There’s a marine biologist in my classroom
Let us bring the world of dolphins and sharks to your classroom.
Our team of marine educators pack up their artifacts, equipment and specimens and deliver a hands-on learning experience so every student feels like a marine biologist. Select one or all of the 45-minute sessions. Minimum 20 students per session.

DOLPHINS
• Dolphins of the world
• Dolphin anatomy and physiology
• Echolocation and adaptation
• Dolphin behavior

SHARKS
• Shark anatomy and dissection
• Sharks and their role as apex predators
• Global conservation measures for shark populations
• Shark tagging & recapture data - What do we learn?
